Copyright Restriction

The material described herein is the physical property of the Maine Maritime Museum Library. **Literary rights, including copyright, belong to the authors of the various items, or to their legal representatives or to Maine Maritime Museum.** For further information, consult the library staff.

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be *“used for any purpose other than private study, scholarship or research.”* If a user later uses a photocopy or reproduction for purposes in excess of “fair use,” that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright law.

It is the user’s responsibility to understand the copyright law concerning the use of the historical documents contained in this library.

Abstract

Maine Maritime Museum Library, *collector.*

Reference collection.

123 boxes (64 shelf feet).

Materials received by Maine Maritime Museum Library staff members in the course of their work which need to be accessible for reference but do not warrant individual cataloging. Divided into five series: **I, Bibliography and family genealogy, marine artists and model makers; II, Places; III, Subjects; IV, Shipbuilders and Boatbuilders; and V, Vessels.** The collection is being added to continuously.

Listing of folder titles available in repository, along with additional material in many of these categories.

Added entries: Genealogy; Shipyards--Bath (ME); Shipyards--Maine; Ships; Boats.

Restrictions

There are no restrictions on the use of this collection.

Foreword

The processing of this collection and the preparation of the inventory were made possible largely through a grant from the National Historical Publications and Records Commission, a granting arm of the United States National Archives and Records Administration.

The initial sorting and screening of files was done by MMM intern Jalien Hollister, with the final foldering done by volunteers Newell Avery, Ernie Bowker, Bud Guild, and Carl Veazie. In subsequent years many other staff members and volunteers have worked on it, significantly and recently Jean Hodgkins and Peter Dublin. In 2017 the inventory was edited by Nathan Lipfert.

Scope and Content

Library staff felt it was important to be able to retrieve miscellaneous bits of information sent by researchers, clipped out of magazines or newspapers, or otherwise accumulated. While the bits may seem insignificant at first by themselves, over the years that they have been accumulating they have taken on some importance. Still, by themselves they are not significant enough to warrant individual cataloging. However, as a group they are. This collection is intended to be open-ended that is, staff will be adding material to existing folders and creating new folders on a continuing basis. As a result the organization is quite simple, and the folders have purposefully been left unnumbered to allow easy integration of new material. In general the arrangement within each series is alphabetical. The subject headings used in Series III are derived from the Library of Congress *Subject Headings*, 15th Edition. Organizations and corporations are filed under their locations in Series II (e.g. Bath—Maine Maritime Museum). The added entries in “series” VI provide cross-references to hyphenated entries within the inventory (e.g. “Maine Maritime Museum, See Bath---Maine Maritime Museum, Series II.”)
